## Summary

Senior Frontend Engineer with 7+ years building fast, scalable web apps using TypeScript, React, and Next.js. I've led product-facing teams, shipped global features for brands like KFC, and built SDKs used across platforms. I focus on clean, maintainable code and enjoy working close to design, backend, and business. I'm at my best when owning projects end to end and moving fast without breaking things.

## Skills

TypeScript, JavaScript, React, Next.js, Vue.js, HTML, CSS, SCSS, PHP, Python, GraphQL, REST, Styled Components, Jinja, ROS, JQuery, PostgreSQL, MongoDB, Agile, Remote Collaboration, Consulting

## Education

### Bachelor's in Computer Science

UFFS – Universidade Federal da Fronteira Sul  
Feb 2014 - Feb 2021

### Software Engineering Program

Rocketseat  
Jan 2021 - Present

## Language

English, Portuguese, Spanish

## Work Experience

### Bitovi

Oct 2021 - Present

#### Senior Frontend Engineer

Led client-facing web team for a major U.S. restaurant chain (KFC). Maintained and improved a cross-platform SDK used by web and app teams (KFC). Integrated DoorDash Tracker into KFC's ordering flow (KFC). Delivered in-game item redemption campaign for KFC x Diablo IV (KFC). Architected and developed the Staffing App, an internal tool for managing assets.

### Mijem Inc.

Aug 2021 - Oct 2021

#### Frontend Developer

Built a 0 to 1 MVP for a student-focused buy/sell platform under a tight schedule. Contributed to UX/UI improvements and initial component library setup.

### Connectabil

Apr 2021 - Sep 2021

#### Frontend Developer

Developed an HR portal connecting companies with accounting professionals. Helped build the platform from 0 to 1 with designers and backend teams. Ensured cross-device compatibility and smooth user experience.

### PLEN Robotics

Apr 2020 - Apr 2021

#### Software Developer

Developed web apps for the Plen Cube personal assistant robot. Created dashboards, scheduling systems, and IoT control panels. Supported COVID-related classroom monitoring tools.

### Amplimed

Dec 2018 - Mar 2020

#### Fullstack Engineer

Developed features for a healthcare platform across the frontend and backend. Improved data integrity and system performance. Integrated third-party APIs and complex database structures.

### Cursos Nando Moura

2021 - 2021

#### Web Developer (Freelance)

Developed two high-traffic landing pages optimized for course sales. Handled thousands of concurrent users during campaign peaks.
